Tons of ideas for your Cake Pop Maker

By A. Allyson

This book just came out at the beginning of 2012, after the cake pop maker craze that started in 2011. A lot of people missed this book, so the reviews of the only books that were out before that are rather slanted in their favor. This book was a godsend to us. We bought the Cake Pop Maker as a gift for our loves-to-cook-fun-things 11 year old, and I researched the very few books available at the time before Christmas 2011. There was only one with good reviews, and it was such a disappointment to find out it was all about fondant decor and complicated decorations- Not fun ideas and recipes.

This book is what we were looking for. It has a ton of exciting and different recipes you can use. Don't be thrown by cake mixes- As someone with allergies, I've been substituting from every recipe book I've ever gotten. The worth of this book lies in 1) TONS of ideas from appetizers to donuts to Euro pancakes! 2) A range of simple to moderate decoration ideas that the normal person could attempt without spending too much time or money 3) A whole section in the back with gift/presentation ideas, 4) A section with vegan and gluten-free recipes.

THIS is the book we are going to recommend and give to others. We are now interested in the cake pop maker again!

Excellent recipes!

By LilPixie

This book has so many excellent recipes! I've made the peanut butter ones so far, but everything looks easy to make. It also helped with my decorating. I was having so many of them fall apart when I went to dip them in the candy melts and I didn't know what I was doing wrong. Turns out you need to not only put them in the freezer to cool them down but put the stick in them and then put them back in the freezer for a little while. I was only cooling them down and then putting in the stick and decorating.

There is also much more than just cake pop recipes there's mini donut holes and breakfast stuff among other things.

Definitely recommend it!

torn

Ok I think I love this book but I think I'm mad at it as well. I love the recipes and I love that they are from scratch. I also love that the recipes were created to use your pop maker which is what I was looking for. Now I am a picture person and this book does not have pictures for every recipe. It has a small section of pictures but I sure do wish there were more. So I hate the no pictures but I love the recipes. Overall I guess I love it enough to get over the no picture problem. This book also has some random stuff you can make that are not cake pops which I thought was great. It has a gift section as well. Maybe I'm just not creative enough because I need pictures to help me bake and cool. sigh*** Oh it also has a cake pops problem solver section, that it awesome. And it does have a few color and picture pages that show the steps to making the cake pops. That section is great as well.
