The mating moon is full...

Rafael Villalobos is a werewolf without his wolf. The beast is rogue, gone hunting without him, making Rafe even more of a menace to his pack than the wolf hunters who hate them. He doesn't know what the wolf wants...until it leads him straight to the sassy, luscious Darling Rowan.

Bitten by a rogue wolf that may or may not have been the sexiest Villalobos boy, Dare knows her quiet days as the county librarian are coming to an end. She'll be coming too, if she can just get a certain stubborn man to admit that the simmering heat between them is more than the mating moon.

This series just keeps getting better and better. I can't wait for the next one, and happily, there is a next one. I love it.

'Rogue' is the third book in the Wolves of Angels Rest series by Elsa Jade as well as the fifteenth book in the multi-author Mating Season Collection of short stand alone paranormal romances. I was given this copy by the author in exchange for an honest review.

Werewolf Raphael Villalobos is a seriously troubled soul. He's appeared in both of the previous books, so if you've read them, you'll already know his history, and if you haven't, there's enough background in this one that it won't feel like you've missed out. The man has given up trying and has descended into a level of bitterness for all he thinks he's lost that he's almost beyond saving. He believes he lost everything worth having when his parents were murdered by human Hunters, and because he was too young to take over from his father, the Alpha position he was destined for was taken by his uncle and now his cousin, Kane. The wolf is a very different story. It knows it has something much more important and precious waiting to be found and refuses to give up looking for his true mate. If the man won't take notice, the wolf will go it alone leaving Rafe with no idea what he does or what happens to him when he's in wolf form. His wolf won't talk to him or connect to him in any way... It's gone rogue.

Darling or more often called Dare, is the County Librarian and Clerk and she has always thought Rafe Villalobos was the sexiest thing on two legs. On four legs he's downright scary, but she wants him anyway. And when she's bitten by a rogue wolf, Rafe has no idea if it was him or the stranger being used by the hunters known as the Kingdom Guard. Dare doesn't know either as both wolves look the same, but she seizes the opportunity it offers with both hands and refuses to let go until the Mating Moon has set....

I love all the books in this series and it just keeps getting better and better with each one. Although they are written as stand alone stories complete with action, steamy bits and a HEA, the characters continue to grow through the books and new ones are added against the background of the continuing conflict between the Mesa Diablo pack and the hunters, with each new twist in the story adding an extra dimension that keeps me coming back for more. If you haven't read the previous books, don't worry, but you're missing out on a great series. I can't wait for the next one.

The Librarian and the Rogue

By Karli

Rafael Villalobos' black wolf is MIA. But when a foreign black wolf attacks Darling, the county librarian, Rafe's wolf rises to defend her. "Dare" is bitten by one of the black wolves, but which one? The intruder, who then tried to drag her into the woods? Or Rafe, who pulled her out of the way as the intruder struck? They may never be sure, since Rafe's wolf refuses to talk to him. Their only solution to stopping the intruder from completing the mating with her is for Rafe to preemptively mate with her. But unless Rafe's wolf returns before the mating season ends, their mating won't 'take' and Rafe will fall to an outdated pack law that says rogues must be put down for the safety of the pack. And his wolf is showing no signs of coming back.

Review for Wolves of Angels Rest: ROGUE

I received this as an ARC for an honest review

Rafael Villalobos is a werewolf whose wolf has gone rogue...which is a death sentence for him if his pack finds out. He has no one to blame but himself for this because he has always chosen to be a more or less lone wolf, not listening when his wolf told him to look for his mate. Fear of losing another person close to him has kept him on the fringes of his pack and life. Darling Rowan has known Rafe for a very long time, she has had a crush on him , but has never acted on it. One night while in her yard, Darling catches a glimpse of a black wolf...she immediately believes it to be Rafe...and she leaves her yard to confront him. She is bitten by the wolf when she decides not to play the silly games Rafe likes to put her through. Although this time, there is also another black wolf...now she is not so sure the one who bit her was Rafe after all. The two wolves fight and in the end, it is Rafe who comes to her after all. He is upset about the bite because neither of them is sure who did the biting. Rafe feels it may be a rogue...and not his rogue....who is trying to force a mate bond. Darling tells him she wants him to bite her just in case, she does not want to be mated to a stranger. Rafe knows it is the only way to break the bond, but he worries about his rogue status. When he tells Darling about it, she gives him the ok to do it. But now the question is, who or what is the rogue and what does it want ?? As the moon becomes full and Darling transforms, Rafe has mixed feelings. He still cannot reach his wolf and he knowa the end is coming for him. But nothing transpires the way he figured it would and he takes drastic and quite possibly deadly actions for himself to save Darling and his pack. Will Rafe live through his decisions or will they ultimately take its toll...and what will happen with Darling if he succumbs ??
