BUTTERFLY KILLS: A STONECHILD AND ROULEAU MYSTERY BY BRENDA CHAPMAN PDF

Two separate crimes, two tragic outcomes.

Jacques Rouleau has moved to Kingston to look after his father and take up the position of head of the town's Criminal Investigations Division. One hot week in late September, university student Leah Sampson is murdered in her apartment. In another corner of the city, Della Munroe is raped by her husband. At first the crimes appear unrelated, but as Sergeant Rouleau and his new team of officers dig into the women's pasts, they discover unsettling coincidences. When Kala Stonechild, one of Rouleau's former officers from Ottawa, suddenly appears in Kingston, Rouleau enlists her to help.

Stonechild isn't sure if she wants to stay in Kingston, but agrees to help Rouleau in the short term. While she struggles with trying to decide if she can make a life in this new town, a ghost from her past starts to haunt her.

As the detectives delve deeper into the cases, it seems more questions pop up than answers. Who murdered Leah Sampson? And why does Della Monroe's name keep showing up in the murder investigation? Both women were hiding secrets that have unleashed a string of violence. Stonechild and Rouleau race to discover the truth before the violence rips more families apart.

EXCELLENT MYSTERY SET IN CONTEMPORARY CANADA

By Julie H. Ferguson

Read as an ARC.

I'm a big fan of Brenda Chapman's Stonechild and Rouleau mystery series set in Ontario. This one centres in Kingston. I appreciate the characterization of the two protagonists — they both have a few demons and difficulties brought to their jobs from the past, as well as different strengths. To me they are "real" characters.

Chapman's books have excellent plots and sub-plots and tackle modern-day crime. Also the author deftly manages tension and pacing, ensure the reader can't put the book down.

And, no, I'm not going to reveal the story or its conclusion - that would be a spoiler.

Highly recommended for mystery fans.

Canadian police series

By AMK

This is an exciting police thriller. Set in Canada, both Stonechild and Rouleau have a few personal issues to deal with as well as a murder case, a rape and a disappearance of a young woman. All seem random cases but as they investigate the murder it becomes tied to the missing person and eventually the rape victim. Well written, this is a series I'll look for the next book. The insight into Middle Eastern family culture and customs can be a little disconcerting.

Multi-layered Mystery

By Laura Hartman

When a college student is brutally murdered, her co-workers in the office of the campus confidential helpline

are scrutinized as possible suspects. Each of them has issues, but all claim they are not guilty. One of them is a troublemaker, one is possibly her married lover and one is an ex-boyfriend. There is always the possibility that one of the callers may have a secret worth killing for to keep it from seeing the light of day.

Simultaneously, police investigator Jacques Rouleau learns of another crime scene. A young mother has been raped by her estranged husband. It is a coincidence or extremely bad luck that two major crimes are committed in Kingston, especially because they are unrelated. Or are they?

Soon the investigations heat up as another body turns up and an assault puts everyone on edge. Enter Kala Stonechild – Rouleau's former partner. Rouleau convinces a reluctant Stonechild to stay in town long enough to help him investigate the attacks because his plate is overflowing with investigating these crimes and worry about his ailing father.

There is chemistry between Rouleau and Stonechild that could easily ignite if they fan the spark. They are reluctant to risk the work relationship on what could be, but both seem interested. Enter Rouleau's ex-wife. The woman that turned his world upside down by having an affair, is now jealously and possessively trying to step back into the role she gave up so easily for another man.

This plot is intricate and involved. Chapman does a great job of blending story lines, adding twists and turns without losing sight of the characters and their roles. As a reader, I like having a bevy of bad guys and not so bad guys to pin the murder on. Chapman provides a wide variety to choose from.

This is a solid mystery with interesting characters that I liked, loved or downright hated. The inspectors, Rouleau and Stonechild, have depth and back stories that are sufficiently told in this second novel featuring them that allowed me to feel like I knew them.

Butterfly Kills was not a fast read for me. But I am not sure it is meant to be. I had to slow down and pay attention to the clues and characters to really enjoy the rhythm of the story. I'm glad I did.
