Amazing Uncharted Art

By Parka

[[VIDEOID:66052936f2779ed320e6f0eb85f67c39]]I'm a big fan of Uncharted and the art so this book is pretty much a must-buy for me.

When it comes to video game art and concept, I feel that Uncharted probably has the most absorbing characters and environments. The main characters are quite likeable and memorable. The environments in the game are absolutely breathtaking.

The Art of the Uncharted Trilogy features the character and environment design for the first three games. It's a 192-page hardcover filled with wonderful art. Looking back at all the beautiful artworks reminds me of the time I first played the game. I was awed by the visuals, and I still am.

Interestingly, art from the first game had a more comic-like look and feel to them, e.g. line art for character designs. From the second game onwards, it went on to have more realism built in. You can see that in the progression of design for the main characters from the first to third game. Environment art also started to be more detailed.

The downside of the book is there should have been more art included. 192 pages are divided among the three games so actually each game just has under a hundred pages. A lot of artworks were left out for sure because The Art of Uncharted 2: Among Thieves by itself is already 272 pages. It's difficult to imagine how much artworks were left out for the first and third game, and how much more awesome this book could have been.

And because there's the dedicated artbook for the Uncharted 2, artworks for that game are duplicated in majority inside this book.

As a standalone book, it's definitely highly recommended to all the Uncharted fans and those who like video game art. I just wished I could see more.

It's gorgeous

A very nicely compiled art book, featuring art from all 3 uncharted games. Each page is made of a nice semi-gloss like paper. I especially love how they give some descriptions of the thought process behind each character when they were first being conceived. A must have for any Uncharted enthusiast and art lovers.

An exciting package of all the three uncharted games, I just finished the trilogy once again, this time on PS4 and went through this book afterwards, it's been great, the illustrations and some of the art is astounding, mainly for the 2nd and 3rd uncharted game, I just wish there was a lot more of it, I missed on the uncharted 2 and 3 artbook because I was kind of a late buyer of PS3, I only bought it in summer 2012. And only now after getting ps4 for christmas this year I managed to go through all 3 games during the holidays and browsing through the book was a pleasure, it's a great companion for every uncharted fan. I would recommend it without a doubt !
