Great Original Series

By samantha trotter

So I was gifted a free copy of this book in exchange for an honest review, and honestly...I loved it as I have the rest of the books in this series.

Unfortunately this book was shorter than the previous books but that didn't take anything away from the story.

Damian grew on me in this book and I liked the way his and Freya's relationship developed.

Great twist at the end. Did not see that coming!

Cant wait for the 5th book to see what happens!

If you want to read something original that hasn't been done repeatedly I highly recommend this Series!

addicting!

By Amy Ochs

I absolutely loved this series! I was sucked in from the first book. I happened upon them when they were

offered through book bub and I am so glad i did. The characters are wonderful and so full of life. They lead you on their adventure with them. I found myself just as torn as the main character Freya when it came to her love interests. I recommend these books to all! I was surprised to learn they were considered young adult books, because I am not a "young adult", and I LOVED them!

Beyond the River of Time

By Amazon Customer

I received a free review copy in exchange for an honest review so here it is...I loved this booked! I am a fan of the series and thought book four was even better than book three. I didn't want to put the book down, especially where Damian and Freya were concerned. I would say as much as I love Finn, Damian definitely grew on me in this book. There were two main twists in the book that definitely surprised me; one in the middle and one at the end leaving a cliff hanger for the next book. I cannot wait for the fifth book to come out and pick up right where this book ends.
