Good Social Studies Textbook

By V. Restrepo

I used this textbook for my daughter's 5th grade homeschooling curriculum. This book is the first volume in a series of two. My guess would be that volume 2 is for 6th grade social studies. Volume 1 starts with pre-colonial America, explaining the way of life of major Native American groups. It then moves to the early exploration of America by Europeans and their interactions with native populations. I explains the effects on culture, disease and diets due to the interactions amongst the two groups. It then covers the exploration and colonization by the British, Spanish, French and Dutch in North America and the colonial way of life. The book ends with the American Declaration of Independence, American victories, and the end of the war. Each lesson was short and to the point. There are basic questions at the end of each lesson to enforce concepts learned, and there are review and assessments at the end of each different Unit. There is a small Geography handbook at the end of the book, covering the basics of geography. I found the book was very well written for the target age group.
