Her body was made to serve...and his body made to fill her.

Lust Fever is on the loose! This virus spreads fast and acts faster—and everyone infected wants nothing more but to have heated, dirty mating sessions with the nearest partner they can find. Men and women of every shape and size do everything they can to take advantage of fertile bodies and virile aggressions. It's masculinity and femininity at its best.

The thoughts of women and men dim, their brains becoming focused solely on being physical specimens designed for more and more intense erotic encounters. Whether it be in an underground lab, in the middle of a small town, or at a spring break resort for college students, no one can resist. Each and every person affected by lust fever becomes obsessed with beautifully sensuous ruts and using their bodies for what they were made—making heirs.

The Mind is the Sexiest Organ in the Human Body

By Marvin Jones

Nightside has proven again that she is one of the most creative writers of erotica currently publishing. This is a story told in the mind of the two protagonists: Rebecca, a frigid lawyer who has not had sex in three years and little before then, and Frank, a handyman who engages frequently in sex with no commitments. As part of a sex research project, they are placed in the same room, and soon come to dislike, if not hate, one another. But an experimental virus with which they have been injected, gradually causes their minds to lust more and more for each other, until they become raging sex-obsessed creatures. Unlike previous works by Nightside, Rebecca and Frank's bodies are just moderately attractive, nothing sexually alluring. Nor do their sex organs receive any enhancement during the couple's confinement. (Despite the picture on the cover, Rebecca, though blond, is at no time, during the story a vixen endowed with DD tits, barely contained in her bra. However, she might be in Frank's mind.) It is the two persons' self-perception and perception of the other person that dramatically alters. Rebecca becomes fixated on Frank's d.ck. Enthralled with images of its power, she comes to think of herself as a subservient slut, who wants to cum all of the time. This mental transformation is extraordinarily erotic. Frank, at first, oddly enough sympathizes with Rebecca's sexual inhibitions, and then finds it arousing as Rebecca becomes fascinated with his cock. As Rebecca's behavior becomes totally slutish, Frank comes to desire to ravage Rebecca's pussy so as to be both Rebecca's master and her virile protector. Also quite a turn-on. The sex scene at the end proves that Nightside is a writer without peer when describing f.cking. I am really looking forward to the rest the titles in the series, as I am guessing they will be extraordinary.

Five stars for a fluid imagination.

By Kris Houston

Nadia Nightside really delivers the heat in her latest short story and she really delivers it well. I loved the fact that she, unlike most other authors within the Erotica genre, had also written in some background info on Frank and Rebecca which only served to enhance the storyline. Additionally, there was also a side bet between the observing scientists that I thought was rather comical. I had also found no typing or grammar errors and the overall storyline itself was pretty much a solid one.

I gladly give this book a 5 star rating :-)

Interesting premise

By A Reader

A really good start to something bigger. It's a little slower than normal for Nadia, but it is a good read later on. This book focuses a lot on the set up which isn't a bad thing at all and should definitely help out future installments in terms of pacing. So with that in mind...

It's really well done the experiment is pretty well described as are the effects as they're happening and how they're taking shape. All in all it's a pretty good read that's just a bit slow at the start.
