Los Angeles, 1957.

Dragged by her mother to California, seventeen-year old Diana Morris is miserable and would give anything to be back on the East Coast. She hates Elvis, thinks poodle skirts are overrated, and couldn't jitterbug her way out of a paper bag.

All this changes when she lays eyes on Rosario Vargas, a young Chicano farm laborer who dresses like a man and sings rock'n'roll in a lesbian nightclub. The proud owner of a cherry-red Studebaker truck, Rosario is tough, stubborn, and isn't going to let anybody get in the way of her dreams.

Can Diana overcome her fears and let Rosario know her secret before it's too late? Can she leave behind everything she's ever known and fight for the love of a woman who shows no interest in reciprocating her feelings?

Find out the answer in this scorching tale of love, courage and transformation that sweeps from the foothills of Southern California's San Fernando Valley to the sultry cabarets of New York City's sizzling underground scene.

Publisher's Note: This book contains explicit sexual content, graphic language and female/female sexual practices.

A wonderful romance

By BrilliantBella

I really enjoyed this book, and I hadn't expected to get so caught up in the characters' story. I learned a lot about a dark historical period in gay history, and I wish this butch-femme romance would never end, because there aren't enough B/F books out there and each one is special.

Also, the romance in this was really hot and realistic, and I couldn't put it down. The rockabilly era really came alive for me and I fell for Rosario also. Don't be fooled by the cover though, this is a fully fleshed-out romance with a real story arc and lots of drama, not a simplistic erotica novel (although be forewarned that the intimate scenes would make any erotica writer blush).

I'm all for interracial lesbian books and this was one on the best one's i've read. The story flowed really good.

Not too fast, not too slow. Diana and Rosario are just great characters. I loved watching their relationship grow through the course of the book.
