This Book is Gold

By B. Boyle

I review next to nothing. This book gives you one precise page for each day of the year. It's a personality profile - the genetics of the personality of those born on that day. The process used was the combining of the ancient science of astrology, numerology, and pop culture. By pop culture, I mean specifically that Jill and her team examined individuals that were born on each particular day -individuals that made an impact on the world, such as Churchill, Hendrix, Gandhi. Suffice it to say that this formula worked. It's a rather majical

book. (You can view an abridged version of this book here:[...])

A good insight into personalities

By Liz

Helped me understand myself and others better, and why, even within the same family, we can respond so differently to situations. It shows my strengths as well as areas to work on and this understanding has given me confidence to accept myself as I am. A comprehensive look covering all from friends and lovers, children and family, careers and finances to dreams and goals. The best I've found for explaining why we are as we are. Wish I'd come across it years ago.
