Repetitive, disorganized

By KC

While I'm sure the author is a great leader, he should not have written a book or at least had someone do it for him. I agree with him 100% but this book is very repetitive and goes in the same circle over and over. I had to get this for a promotion exam in the fire dept. and feel that it could be a good book if it were cut in half ,but 400 pages of the same point reworded takes a toll on the human mind. He should have put trust in the reader that his message was received the third time around before reaching ch 4. This book has good points, but needs to be put in a logical and applicable order. On the next edition , please proof read as I'm sure there will be a 2nd edition , which inevitably is what these writers do to keep making money off of those that have to purchase these books.

Mind numbing

By grayson sanders

This book is terrible. The author rambles and contradicts himself throughout the book. It Cleary did not have an editor that read it through. Not to mention that it has a very negative tone toward his former dept and other government agencies. Just a complete waste of time.

this is pure experience

By parapastor

If you are looking for a book of pure experience on the fire ground this is it. Sargent brings a heads up on the transition from fire fighter/ medic to supervisor.
