Royal Wedding.....royal divorce?

By Marilyn Shoemaker

There are series and then there are spectacular series and that what every single Harlequin Presents author gave to The Royal House of Karedes.

Dramatic and stunning is all I can say about the last book which is Carol Marinelli's contribution with The Desert King's Housekeeper Bride. It was so amazing that it kept me charged and up all night reading it and absolutely not wanting it to end. As I read the last three chapters my heart raced because I knew it was going to end dramatically and it lived up to that emotion and so much more!

Knowing that you were going to be King of a country would be hard on any man but not this future King, this desert sheikh Zakari. He can't wait but before he can rule his country Calista and take over the island Aristo he must find the missing pink Stefani diamond. Once he does that and he's very sure he will, he will

rule both countries as Adamas as it once originally was before a bitter family feud. The desert always clears sheikh Zakari's head so that's where he's gone and he awaiting a maid from the palace to take personal care of him in everyway. However, she's becomes unavailable and in her place a palace maid is sent thinking she's going to clean and cook for him. Of course, this sexy and handsome sheikh has other ideas until he sees this prim, shy and curvy virgin.

Effie is a very sweet and sincere person, takes her duties at the palace very serious and misses her mother very much since she passed away. She loves her country but also has a love of Aristo where her mother once was a palace maid as well before leaving and arriving in the desert kingdom to live out her days in her little cottage. Effie has kept up on the politics of both countries and is aware Aristo's king cannot have his coronation until the missing diamond is found. She is hard working, honourable and wishes to serve her King but when she arrives to his desert tent what she sees is the most amazing and handsome King she's admired from afar. What she doesn't count on is liking him, spending time talking with him, sharing a meal and in the end having him seduce her.

Zahir is used to getting what he wants especially in bed. He doesn't make the time for kissing he only takes but on this occasion when he realizes that Effie is a virgin he makes sure it's perfect for her. What he doesn't realize is two things, 1) it's perfect for him as well and 2) later that evening she's wearing a gift from her mother, a necklace with a pink diamond the exact one he's looking for and he puts two and two together with Effie's stories about her mother. He realizes her mother had an affair with the King of Aristo and she's the result. He whisks her back to his palace, demands they marry, lies with words of love and then the next day destroys her when he tells her the news.

How can the man she loves sink so low by lying with words of love to get the diamond and end the end for one reason only to be the ruler of both countries? Effie's devastated and the proud sheikh doesn't understand. He likes Effie, she gives him peace and soothes him and he believes she'll be a good Queen and mother of his children. She'll have power, money, everything her heart desires so how can she turn away from him?

Personally I wondered how any author could tie all of these books together, with the two countries, the different families and their own personal stories and Carol Marinelli did it brilliantly. The last chapters, the strong emotions, the uncertain, the heartbreak and the oh so surprising ending full of twists and turns, they had me on the edge of my seat and I thought absolutely brilliant. And then the teaser because not all of the mysteries surrounding these two dynasties were solved as there is still one missing person and Ms. Marinelli left one hoping and dangling at the same time. So if you're a fan of The Royal House of Karedes, Carol Marinelli's *Wedlocked: Banished Sheikh, Untouched Queen* might hold all of the answers. This will be part of her *Dark-Heart Desert Men* series.

Behind the book - Carol Marinelli:

"I loved how awkward and shy Effie first appeared, yet just beneath the surface, she was intelligent and strong. And as the story revealed, there was something special about her - she just didn't know it yet.

As for Zakari, he was my first sheikh, so he holds an extra-special place in my heart. I love Zakari!" CM

Hmmmm...MAJOR SPOILERS!!!!

I did not like it that much. I understand he is a king but she was WAY too submissive. She let every one

make her feel fat and frumpy and did nothing; the hero did nothing as well. He knew she was feeling badly about herself and saw how the clothes fit her that she was dressed in and he said not a word to the servants or her. I hated how the hero was CONSTANTLY thinking about how his mistress would please him at the beginning and that the heroine looked nice in that other woman's things, not to mention that he let her get dressed in other mistress' clothes for a date night after they had sex for the first time. He even thought the heroine was big and not pretty upon the first day's impressions and he had no instant connection with her. He also noticed another woman during the time when the heroine was not giving him sex and was even hard as the other woman flirted with him and he even said that all he had to do to get release was smile at the woman but then he said that the only one he wanted was the heroine. I do not like that he even noticed someone other than the heroine and got aroused from it, that was annoying. The only part where she shows her backbone was after she found out about the real reason he wanted to marry her. I did love how she did not melt at his touch. Most heroines become a withering body of hormones when their heroes touch them, forgetting that they are angry at that moment, but not this one. She let the hero touch her because he was her husband and king and her body may have wanted to give in, but even after the hero started to actually have sex with her, she laid there and did not move until he gave up. He did not touch her again until they were reunited. I did like that she became strong towards the end and that the hero was extremely worried about her when she left the palace. I actually felt bad for the hero because when he finally realized he loved her, he had already betrayed her love and trust so anything he said or did made her think he was lying and just trying to get the jewel back from her again.

Ok

The book was alright. It seemed like a lot of hurt feelings of course could have been avoided if someone just decided to open their mouth and communicate (although isnt that the problem with lots of relationships :) I think its okay for another quick read but there are other books out there that are much better!!!
