Best books for teaching children to read

By Homeschool mom

Primary phonics are among the most dull-looking books on the market, yet they thoroughly teach children how to read quickly and effectively. Not only did they work with my three children, I recommended them to other people (8 children total). For four year olds, ALL of them advanced from sets 1 to 5 in 4 months!. All of the children entered kindergarten reading at a second grade level! The books are amazingly effective!

Great product! Should be on the market forever!

By Carol McCadden

I used those little readers for 24 years of my teaching, to the point that they literally fell apart. Recently, I was so happy to see that they were still available, and am now using them with my grandchildren.
