OK for an erotic story. If you're looking for something that will haunt you and have your mind working over time thinking about it long after you've finished, then this is not the one for you. But if you are looking for a nice spicy story to read sitting by the pool on a hot summer day, then pick this one up.

another great one

By Amanda

Per usual, this was another great story from Jenika Snow. I love how she writes about strong, sexy alpha men who want nothing more than to protect the women they love. The idea of doing this type of story is fantastic and I'd love to be able to write but there's no creative bone in my body. Props to Jenika on another great book and I look forward to more.
