Something you have to read if you are a RATM fan

By Lily

When I just bought it I started to read it and I didn't want to leave it until I finish it. Awesome book. Is not like the others biographies where they just talk about the band career, personal lives and that's all. Is a book that contextualizes RATM music with people that knows professionally the history, politics and all the topics that involved this group. That's a plus in this work. Highly recommended!
